

Young Philanthropist Program

What is the Young Philanthropist Program?

We want to introduce as many young women to our organization to show them the power of collective giving. For women under 40 that are not ready to commit to a full membership, we are offering a \$550 membership to get to know the organization.

How many spots are available for Young Philanthropists?

This membership is offered on a first come, first serve basis. We will typically have ~15 new young philanthropist members annually but is based on funding. Once you enter the program, you have two years to become a full member.

This sounds great! How do I join?

Go to impact100mke.org and click the "Join Us" button on the site. Select the Young Philanthropist membership to join.

I'm under 40 but I would like to pay a full membership. Can I?

Of course! The intent is to introduce the organization to young women. Becoming a full member is the goal!

How is this program funded?

We have amazing members that want to specifically invest in young women to keep a sustainable organization! These are all restricted donations for this program specifically set aside to match young philanthropists. Any one can donate!

I want to help fund this program. How do I donate?

Two ways: You can select "Sponsor a Young Philanthropist" on your membership renewal OR you can select the "Support Us" section of the website and note Young Philanthropist Program.
